PYE SURFACE JOINT COMPOUND

Multi-Purpose Finishing Compound

DESCRIPTION

PYE SURFACE JOINT COMPOUND is a premium and non-asbestos compound use to align and form smooth finishes at joints areas. It can be used similarly to fill up cracks, recessed areas and to embed screw heads.

SUITABLE FOR

- Gypsum board joint filling and plaster
- Patching repairs and filling crack holes
- Use as skim coating on plastered surfaces
- Gypsum board, concrete substrate.

DIRECTIONS FOR USE

Surface preparation

Surface preparation must be dry, clean, free of dust, oil, paint, grease and other foreign materials. All protruding nails or joint tapes must be depressed 1mm below the finished surface.

Application as Joint Finishing:

Application by trowel, scraper and blade knife by layers and subject to surface conditions and strictly on dry surfaces. Apply first thin layer between the joint of gypsum board and embed with joint tape. Allow it to dry before apply second coat. Final coat shall apply with wider blade (10") as to cover the joints & fasteners surfaces.

Product Code : FISU

Application to Inside Corners / Outside Corners Finishing:

Apply compound to both sides, fold tape along the centerline and press into position. Remove the excess compound, then apply a thin finish layer over the tape for a smooth finish.
