PYE Products..... easy to use

PYEFUNGIRID

Fungus Growth Inhibitor

DESCRIPTION

PYEFUNGIRID is a concentrated clear light yellow solution which is specially formulated to kill and get rid off all the spores or organic growth, such as algae, fungi and mould prior to painting of wall papering.

SUITABLE FOR

PYEFUNGIRID can be applied on surfaces such as walls, painted surfaces, basins, roofs, floors, bathrooms, kitchens, swimming pools, etc.

DIRECTIONS FOR USE

Surface preparation

All visible organic growth should be removed by scraping and brushing with a stiff bristle (not wire) brush during the cleaning process.

Ensure the entire surface is applied on with **PYEFUNGIRID** and scrubbed well into the surface. Leave for 24 hours to kill the spores completely then wash off with clean water.

After application, should the applied surface appear dusty or friable, **PYESTABILISER** should be applied.

Product Code : REFU

Mixing

PYEFUNGIRID is supplied ready-to-use and requires no mixing.

Application

PYEFUNGIRID should be diluted at the rate of one part to 2 parts of cold water. Apply with brush, roller or a sprayer on the entire surface.
