PYEFLOOR SCREED

Cement Based Mortar for Levelling of Concrete Floor and Repair of Screeding Underlayment Interior or Exterior Conditions

DESCRIPTION

PYEFLOOR SCREED is a specially blended premixed hydraulic cement and non-reactive aggregate. The product is ready to use when mixes with clean water. It is easy to apply and useful for levelling rough and uneven concrete floors. The product is used primarily underlayment for waterproof or tiling floor. The product can be troweled for screed repairing.

DIRECTIONS FOR USE

Surface preparation

Substrate must be clean, free of dust, oil, paint, grease and all traces of mould. Nails and other foreign material must be removed. Prewetting is recommended for dry surfaces, but over wetting resulting in accumulation of water on the surface should be avoided.

Mixing

Slowly add a 40kg of **PYEFLOOR SCREED** to 6 - 10 litres of clean water. Use a power drill or concrete mixer to mix thoroughly until a smooth consistency is achieved. Then allow 1 minutes for the chemical additives to dissolve in the mixture.

Application

Pour the mix onto the prepared surface and spread to the required thickness with a notched trowel.

TECHNICAL & PHYSICAL DATA

Colour	Grey
Form	Powder
Binder	Cement
Filler	Specially selected graded clean sand
Coverage	1.8kg/m2/mm
Shrinkage	< 0.1 %
Thickness	10 - 50mm
Cleaning	Clean tools with water

STORAGE

Store in dry place and cool condition.

PACKING

40kg
